LIYAT CONSTRUCTION
Water Well Drilling & Engineering

Liyat Construction — website QR code

Opens: **https://liyatconstruction.com**

This is a static code: the address is inside the code itself. No QR service, account or subscription is involved, so it never expires. Scanning needs no internet; opening the website does.

Files

File	Use
liyat-qr.pdf	Print (vector, 60 × 60 mm page; scale freely, it stays sharp)
liyat-qr.svg	Print or design software (vector)
liyat-qr.png	Screens, slides, social media (2400 × 2400 px)

The white border around the code is part of it. Do not crop it.

Rules for the designer

- **Size:** at least 2 × 2 cm on business cards; larger on folders, banners and signs (rough rule: scanning distance ÷ 10).
- **Colors:** black on white as supplied. If recolored, only a dark color (e.g. Liyat green #156635 or Ink #1D2521) on white. Never light on dark.
- **Background:** plain white. Not over photos, patterns or textures.
- **Do not** stretch it, crop the white border, round the squares, add a logo in the middle or add effects.
- **Label it:** print the address under it, e.g. “Scan to visit us · liyatconstruction.com”.
- **Proof:** before the full print run, print one copy at real size and scan it with 3–4 different phones (iPhone and Android, new and old).

LIYAT CONSTRUCTION

Water Well Drilling & Engineering

Before printing

liyatconstruction.com must be **registered and the website live**. Otherwise every printed code opens nothing.
